

ASAIPA FOUNDATION GOLF DAY 2023

For the second year in a row, a sunny Gauteng mid-winter's day sandwiched again between two icy cold fronts, contributed to a second highly successful ASAIPA Foundation Charity Golf Day at Tshwane's picturesque Woodhill Golf Estate on Friday, 28 July.

A full field of 144 players enjoyed the challenge of a Shotgun Start format, as well as the hospitality of sponsors on all 18 holes. The event itself attracted more than 30 major sponsors, listed along with details of other worthy Foundation activities on its website at [ASAIPA Charity Foundation - ASAIPA](#)

This year the winning four-ball was father-and-son team Gustaaf Theunissen Snr & Jnr, who joined forces with provincial rugby players Jaco Kriel and WJ Steenkamp to take the honours.

A highlight to end the day was the Philip Morris SA a thought-provoking talk on "Harm Reduction in Health" by well-known health administrator, ophthalmologist Dr Kgosi Letlape, former SA Medical Association chair, recent Health Professions Council of SA (HPCSA) president and chair of the council's Medical and Dental Board, which took place during the prize-giving event.

The ASAIPA Foundation and beneficiaries take this first opportunity to publicly extend our appreciation to Phillip Morris SA for a stimulating evening and importantly, our thanks to all the sponsors and golf teams who all contributed the all-round success of the day's proceedings.

"This event was another hugely successful day, where doctors could come out, engage socially, and enjoy a day on the Golf Course" ASAIPA Foundation chair Dr Unben Pillay acknowledged at its conclusion.

"Beyond the golfing achievements, this day," he said, "was about unity and compassion, as we stand together to uplift underprivileged communities. To this end, the funds raised will go a long way in providing resources, healthcare services, and educational opportunities to those less fortunate and all contributors must know that they are making a profound difference in the lives of others in need."
