

Ensure Your Practice Is Compliant

Updated clinical regulations now require General Practitioner to equip their consulting rooms with appropriate oxygen therapy and emergency resuscitation equipment.

Oxygen Concentrators

5 Liter concentrator
10 Liter Concentrator
Portable Concentrator

Oxygen Cylinders

Portable Cylinder Kit
Back-Up Cylinder Kit

Pulse Oximeters

Finger Tip
Handheld

Resuscitation Equipment

AED
BVM
CPR Board

These requirements are designed to ensure immediate access to oxygen delivery and life-saving intervention when needed. Properly equipped rooms not only meet regulatory standards but also enhance patient safety and clinical confidence.

We offer supply, installation, servicing, and ongoing support to help your practice meet these requirements seamlessly.

Contact us today to review your current setup and align with the latest regulations.
